Terminal Disclaimer

1. The terminal disclaimer filed on 7/3/2007 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of 7,161,682 has been reviewed and is accepted. The terminal disclaimer has been recorded.

REASON FOR ALLOWANCE

- 2. Claims 1-6,8-20 are allowed.
- 3. The following is an examiner's statement of reason for allowance:

The prior art fails to teach or suggest an optical navigation device comprising: a light source for illuminating a surface with a narrow bandwidth beam at an angle of illumination with respect to said surface; and a detector positioned at an angle of reflection with respect to said surface operable to receive a reflected portion of said narrow bandwidth beam, wherein said angle of reflection is substantially equal to said angle of illumination; and a filter positioned between light source and surface as claimed in claim 1.

The prior art fails to teach or suggest a system for controlling a positional pointer on a video screen of a computer using a mouse to detect relative motion with respect to a surface, said system comprising: means for generating narrow bandwidth specular reflection images, each said narrow bandwidth scatter pattern being specific to a portion of said surface over which said mouse moves; a filter located between means for generating and surface; and means for converting said specific narrow bandwidth

Art Unit: 2629

specular reflection images into signals corresponding to relative motion between said mouse and said surface as claimed in claim 11.

The prior art fails to teach or suggest a method for determining relative motion between an optical navigation device and a surface, method comprising: providing a narrow bandwidth light beam at an angle of illumination with respect to said surface for illuminating said surface; providing a filter positioned between in the light beam; and receiving a reflected portion of said narrow bandwidth light beam at an angle of reflection with respect to said surface, such that said angle of reflection is substantially equal to said angle of illumination as claimed in claim 16.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nitin Patel whose telephone number is 571-272-7677. The examiner can normally be reached on 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin H. Shalwala can be reached on 571-272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
